FOUR STEPS TO LOVING MONEY

RIGHT NOW

These are my #TOPmamma POWER secrets & I'm SHARING THEM WITH YOU. IT'S TIME TO GET IT TOGETHER AND GET REAL. THESE 5 STEPS CAN ZOOM YOU INTO YOUR money Love zone.

Money is an energetic symbol for the value that we place on stuff! It's not mine, it's not yours, it's god's gift to life for exchange. Money is not out there to be had; it

materialises in direct relation to the consciousness that we hold, and it shows up as the physical demonstration of our level of consciousness.

Your job is to be the consciousness of money.

1 GET YOUR MONEY IN ORDER

Ignoring your financial situation is a clear way to chaos, and money likes order and harmony. If you don't know your monthly outgoings and your direct debits off the top of your head, and you have no clue what bills are coming out and when, then how can you be prepared for the flow and transaction of prosperity in your daily life? Creating a clear list of your outgoings and noting this on your daily planner keeps you in the know, and yes, knowledge is POWER.

2 GETTING OR GIVING

Our money story keeps us where we are in terms of giving and receiving and flow.

What's your story? Are you stuck in a fight, flight, or freeze around money? Are

you

living in the old limits of an old paradigm? Money responds to our GIVING nature.

Now is the time to check your intention around your use of money. If you are only ever concerned with how you can have more of it, and give little focus to your intention to GIVE into life, you will see little return. The ancients lived by a system called *tithing*, giving away one-tenth of every penny of income to build up their FAITH in the FLOW muscle.

3 GET ANOTHER STORY

Ditching the old unsupportive story leaves a space, a gap if you like. As you realise that the DENSE LAYER OF UNSUPPORTIVE ASSUMPTIONS that you may have held onto possibly for years, are not the truth of the matter, you will be called to invent a BRAND NEW STORY. The Divine will fill in the gaps, and so you'd better be prepared and ready with your desired intentions for 1/ the amount of money you are ready to receive weekly [constant and increase], 2/ your intentions for its use, 3/ how you feel about this and your ability to LIVE from this feeling 24-7.

4 GET COMFY WITH THE UNCOMFORTABLE

When you ask, the Divine will provide, and in this provision, you will be called to grow and expand in your consciousness. This will be uncomfortable. You will be called to get comfortable with the transition and metamorphosis stage of growth. You will be called to take up the challenge and rise to the calling, and depending upon your willingness to surrender, the demonstration will occur as and when you realise that YOU ARE THE MONEY. This can take its time and yet in that growth process there will be continual opportunities for a turbo zoom ... the question is, are you willing to rise up and say YES?

2 * BONUS GET YOUR FEELINGS IN CHECK

How do you feel about money? Do you like it, do you resent it, do you fear it? It's vital to get clear with your feelings about money, and to DO the healing work around that. Money can trigger a lot of emotions, and if you are harbouring these, you will create resistance to BEING the CONSCIOUSNESS of money.

Extra SECRET Bonus..... Let it go

When you know in your heart that the Divine is on your side, and that your work is to work WITH the Laws of life, then you really are living in the FLOW.

Letting Go in absolute FAITH and CONFIDENCE is a work in progress and one that commands constant attention, this goes back to the practice of tithing, [always to a person, place, thing that has spiritually nourished your SOUL'S evolution.] As you lean into the Divine, you will be shown the way to wealth in all ways. You will be given insight, you will be led, and you will be shown ways that you never could have imagined existed to prosper and BE THE MONEY.

LET GO AND LET THE DIVINE DO ITS THING.
